REASONS FOR ALLOWANCE

1. The following is an Examiner's statement of reasons for allowance: Claims 1-38 are considered allowable since when reading the claims in light of the specification, as per MPEP § 2111.01 or In re Sneed, 710 F.2d 1544, 1548, 218 USPQ 385, 388 (Fed. Cir. 1983), none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims including upgrading stored code for the processors, determining that a processor is bad, busying out a module so that no calls are processed through that module, and attempting recovery of the bad processor, as specified in claim 1; using a module controller, a memory and a plurality of DSPs, determining that a processor is bad and attempting recovery of a bad processor while the impact of recovery or upgrade is minimized while the overall system capacity is maximized, as specified in claims 7 and 23.

The Examiner was persuaded by the arguments filed.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David R
